Installing the FB4 DMX into the exernal Housing with Neutrik Network Adapter

O Removed the highlighted screws.

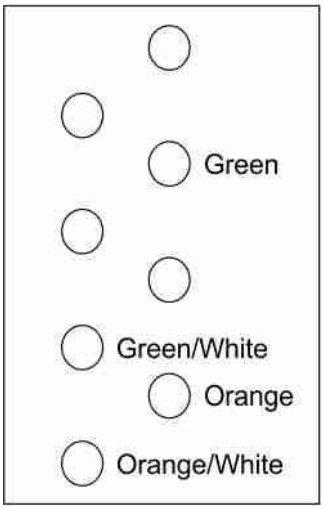

Open the Housing and you see above.

1. Before you Install the DMX Module, connect the module Cable to the on board FB4 DMX connector
2. Connect all Cables (see next Picture)
3. Install the FB4 Board in the Housing
4. Solder the Network Cable to the points indicated in the picture below.
5. Check connections thoroughly

O Cut this 4 Point flat then the Housing goes better Close

Soldering Points for the Neutrik Network Connector
